

230V
Max. 25W

The image shows a white cylindrical component, likely a light bulb base or a similar electrical part, mounted on a white surface. The component has a label with the text "230V" and "Max. 25W". Above the label, there are three embossed symbols: a semi-circle, a semi-circle with a horizontal line through it, and a triangle with a horizontal line through it. The component is positioned in front of a white panel with a circular hole at the top.
