

INSTRUCTIONS

1. Charge the device fully before using it for the first time. While charging (for about 3 hours) a red power indicator will flash. The device can last up to 12 hours before recharging again.
2. When light is off electronic circuit is inactive. If you do not plan to use the device for a long time, please turn off the power switch. This will extend the life of the product.
3. The silicone cover and the electric base-part of the lamp can only be cleaned with damp cloth with a few drops of mild cleaning agency applied - no soak washing, since it will damage the product.

ATTENTION

1. This is not a toy. Children under 3 years old should be under adult supervision when using the product.
2. **WARNING:** not suitable for children under 3 years old due to small parts. Please retain the name and address for future reference.
3. Do not disassemble the internal device. It may damage the product.
4. Please store the lamp in a dry environment if not used for a long period of time.
5. Although it is not a toy, the lamp is tested according to safety requirements applicable for toy, since children might use the product.
