

Safety and Certification

Toys sold within the European Union have to satisfy the strictest safety requirements in the world, and the CE marking on our packaging indicates our commitment to marketing safe toys only. This is the most effective way of guaranteeing that the product in question complies with all relevant safety standards. All FaBiOX products are checked before going on the market and all of them comply with European health and safety and environment regulations.

FaBiOX 4x4

The FaBiOX 4x4 has a base that is 4 studs (1,26x1,26x2,28 in) wide and 6 LEGO bricks high.

It is ideal for exhibiting standard figures and their tiny accessories, that is to say, most of the Minifigures released since the 1970s and including LEGO FRIENDS, FABULAND and JACKSTONE.

Main features:

- compatible with LEGO bricks;
- allow contents to be viewed from all sides;
- protect your Minifigures from dust;
- cases are 4 studs wide and 6 bricks high;
- can be used like bricks for building showcases;
- displays built from FaBiOX cases are easy-to-wash with home cleaning products;
- attractive exhibition showcases.
