Intended Purpose:

A non-powered, foldable, waist or trunk height mobility aid with handgrips and three or four wheeled legs designed to provide a stable support for a user with a walking disability, a geriatric, obese or infirm user when standing or walking. Constructed of aluminium it is a mobile support structure which the user holds and pushes in front of them as they walk. It is foldable for storage and transportation and includes a breaking mechanism. May include an integrated seat.

Object:

to which this declaration relates is classified as risk Class 1, according to the rules set out in Annex VIII, is in conformity with the following relevant legislation;

- Directive 93/42/EEC on medical devices (EU MDD)
- UK MDR 2002

and that the device carries the UKCA Mark as required under UK law.

We confirm that the listed devices are in conformity with the following standards;

- BS EN ISO 11199-2:2021 Walking aids. Assistive products for walking manipulated by both arms. Requirements and test methods – Rollators
- BS EN ISO 14971:2019 Medical devices. Application of risk management to medical devices

Place and date of issue: Lancots Lane, Sutton, St Helens, Merseyside WA9 3EX UK June 2023
